Hello Wake Forest Summer Research Intern,

You are being asked as a fellow who is over 18 years of age and in one of the selected REU programs to participate in an engineering education research study titled: A New Framework for EML in Undergraduate Research REU Programs

The purpose of the research study is to assess the impact of entrepreneurial mindset-supporting programming on undergraduate students, faculty, and industry participants. Participation in this study will involve participating in a no more than 30-minute survey.

Participation in the study is completely voluntary. Students will not be compensated for their participation. If at any time you decide you would no longer like to participate in the study, please let Dr. Jamison know, and we will remove your data from the study.

It is important for you to be aware that whether you choose to participate or not in this study, it has no bearing on your performance in the REU program. If you have any questions, please contact the lead researcher on this research study, Dr. Cassie Jamison, at [jamisonc@rowan.edu].

This study has been approved by Rowan University's IRB (Study # PRO-2023-117).

If you would like to participate in this study, please follow the link or QR code provided below. Your participation is greatly appreciated!
